PURPOSE: The Riverfront Development Corporation has submitted an application for a Section 10/404 permit for the restoration of the historic Memphis Cobblestone Landing including its long term preservation, improved public access and the addition of interpretive enhancements. Protection and improvements to the Memphis Cobblestone Landing would include stabilization of the bank at the base of the cobblestones, to repair the cobblestone field, to add walkways and staircases to enhance public access and to remove above ground utilities. The project will require the hydraulic dredging and placement of fill materials below ordinary high water along the western edge of the Memphis Cobblestone Landing for pedestrian access and stabilization of the cobblestones. The purpose of the meeting is to acquire additional information or evidence that will be considered in evaluating the proposed permit application. This meeting will afford the public an opportunity to present their views, opinions, and information on such permit action.
